The OPTOCAM^{AHD} SpotterScope system was developed in collaboration with best special units and LE agencies and is used by those units since.

The OPTOCAM^{AHD} SpotterScope systems are being used on the borders by special LE activities, training, and spotting missions.

OPTOCAM^{AHD} SpotterScope systems are add-on products, recording directly through the spotting device eyepiece with zero effect on scope's field of view and image.

OPTOCAM^{AHD} SpotterScope
